17 With reference to the Committee's remarks within brackets, it is respectfully submitted that the proposed condemnation of allotments of sites do not enforce any restrictions as to the open space to be left in front of each house or cottage and that it was only at the Committee's meeting of the 16th September 1908 that it was decided that open space

Space of 15 feet should be required to be left in front of each house and of 20 feet in front of each College. This subsequent Condition could therefore affect buildings already erected and there is no violation of any contravention of the Conditions in those Cases. In these circumstances, instructions are solicited as to whether any action is necessary in this matter.

been published in the Gazette as measuring 75 x 150 sq. ft. though it actually measured 45 x 150 sq ft. That the Committee used a official Register of titles at the time of the auction-sale furnishing particulars as to dimensions, boundaries, wells &c and those particulars were read out to the gentlemen present as each site was put up to auction according to the Resolution of August 1908, Revised Conditions were read out at the time of sale

22 In this Connection, attention is also invited to Mr. B. Ramaswamiah's case (Part No. 3 of 15-1 (909) in which no demand seems to have been made for the additional land (9 x 150 sq ft) found in actual measurement.

23 One of the instructions issued to the Committee at the time of its formation was that the value of all the sites should cover the cost of acquisition and subject to those instructions, the Committee's decisions as to the values to be fixed on the several sites are final (vide paras 2, 3 and 4 of G O No. 1303-S dated 07-07-13 of 1913 4. Mkt 17/2/09 17/2 25 The decision of the Committee on matters connected with the value to be based on acres is final. The discrepancies pointed out in the note above do not seem to call for the interference of Govt.

2. Application dated 20-1-09 from Rani Ratnammaji, Coorg Royal Family, for Bungalow sites Nos. 2, 3 and 4, free of cost, or, at the rate allowed to the Ramakrishna Mission.	The reduced price, Rs. 500, is fair. No further reduction can be made. More than one site cannot be granted.
3. Petition dated 22-1-09 from Mr. C. Venkata Rao, Registrar, C.R.S., praying a second time for refund of a portion of the value paid by him for Cottage Site No. 1, as it measures much less than the notified area. The refund applied for may be sanctioned.

1 Letter dated the 5th April 1910 from the Executive Engineer, Water Supply & Stores Division, re the modification of some fountains.

Resolution.

The Committee inspected the sites selected for the fountains and considered the question of altering some of them.

Resolved that the recommendation made by the Executive Engineer, Water Supply & Stores Division, be adopted as being the most suitable.

The Committee have already resolved that the vacant site between the IV-Main and the Fort Centre Roads should be reserved for a park and recreation ground They consider that the site to the east of the Fort Centre Road should be similarly reserved. The site already granted to Mr.Sajjan Rao is very well suited for

The Committee are of opinion that the sites now applied for by Mr Sajjan Rao cannot be granted.

The condition as altered will be as follows -

" The windows of all rooms "shall open into the external "air and there shall be counter windows for free circulation of air, if possible."

Memo No 449 dated the 8th April 1910, from the Health Officer, Bangalore City

---

Rule 6 of the Revised Rules in re erection of buildings in the New Extension between Chamarajpet and Basavangudi-a copy of which is herein annexed for kind perusal-is misleading to the public in making the size of the bed-room so small as 8'x 6'x 7½' i e 360 C Ft-a space which is hardly enough even for a single soul, the minimum cubic space which should be allowed for an adult being 500 C Ft

The rule should therefore be thus altered -

"That the minimum size of a room other than the bed, office and sitting rooms should be not less than 6 Ft wide, 8 Ft long and 7½ Ft high"

The bed, office or sitting rooms shall be constructed sufficiently large, so that if the whole lot are converted into bed rooms as is generally the case, there shall be not less than 1000 C Ft for each room If is will allo the required air space for at least two adults to sleep

The windows of all rooms shall open i to the exter l air and there shall be counter windows for free circulatic of air In addition to these windows, there shall be lights or ridge ventilators, so that there shall be minimu amount of ventilation when all the doors a d windows are shut
